

# RCS Weigh-Station

## Making Checkout Faster & More Convenient

Experience a hassle-free checkout process with our innovative solution, the RCS Weigh-Station. By seamlessly linking large capacity scales directly to your POS, weight-based sales can be captured quickly and accurately, ensuring a smooth and efficient checkout experience. This integration significantly reduces manual errors, accelerates checkout times, and enhances operational efficiency. With Counterpoint integrated POS floor scales, you can enhance the customer shopping experience and unlock new sales opportunities with a shop-by-the-pound option.

Rest assured with the durability of the RCS Weigh-Station, designed to withstand the daily flow of customers. Fairbanks scales and instruments' industrial design is guaranteed to endure heavy use, making them easy to clean and maintain. The RCS Weigh-Station is always ready to meet your retail demand, even in the busiest checkout lines.

**Faster Checkout:** Reduce wait times with easy roll-and-go floor scales. Your POS is integrated with industry-leading Fairbanks Scales to ensure accurate weights every time.

**Simplify Operations:** RCS Weigh-Station is integrated with Counterpoint to help your retail operation capture better margins and reduce inventory volumes efficiently and accurately.
